Urgency and Scarcity: How to Reduce Abandonment on WooCommerce

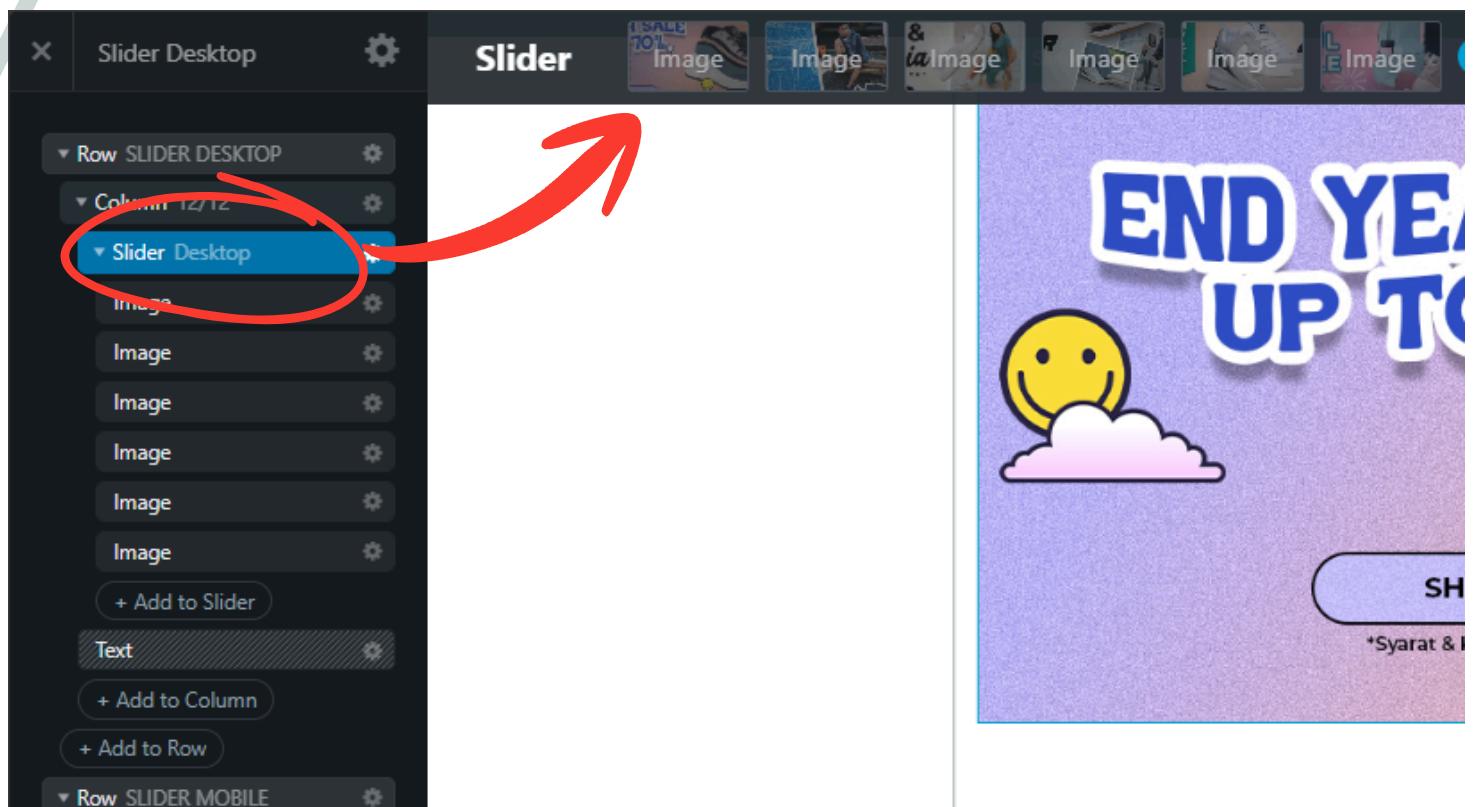

You've made your site better with quality articles to bring customers back to your goal: the customer adds a product to their cart and sets it, but think again. Nearly 70% of visitors leave before completing the purchase.

Catalog Mode vs Request for Quotation

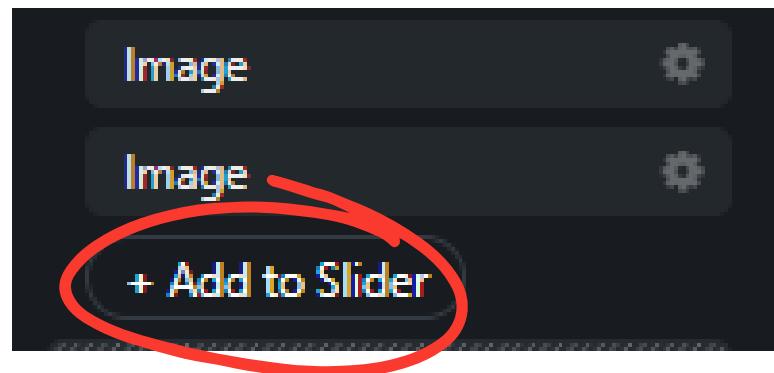

2. Anda akan melihat tampilan Editor seperti dibawah ini beserta dengan preview dari slider homepage

3. Untuk merubah slider, klik pilihan “Slider” di dalam elemen “Column” lalu anda dapat melihat slider yang telah dipasang sebelumnya

4. Untuk menambahkan slider, anda dapat menekan tombol “+ Add to Slider”, lalu pilih “Image”

Elements

A screenshot of the "Elements" section of a UI builder. At the top is a search bar with placeholder text "Search...". Below it is a "CONTENT" section containing four cards: "Banner", "Image", "Lottie", and "Logo". The "Image" card is circled in red. Below the "CONTENT" section is a "Lottie" section with two cards: "Lottie" and "Acme".

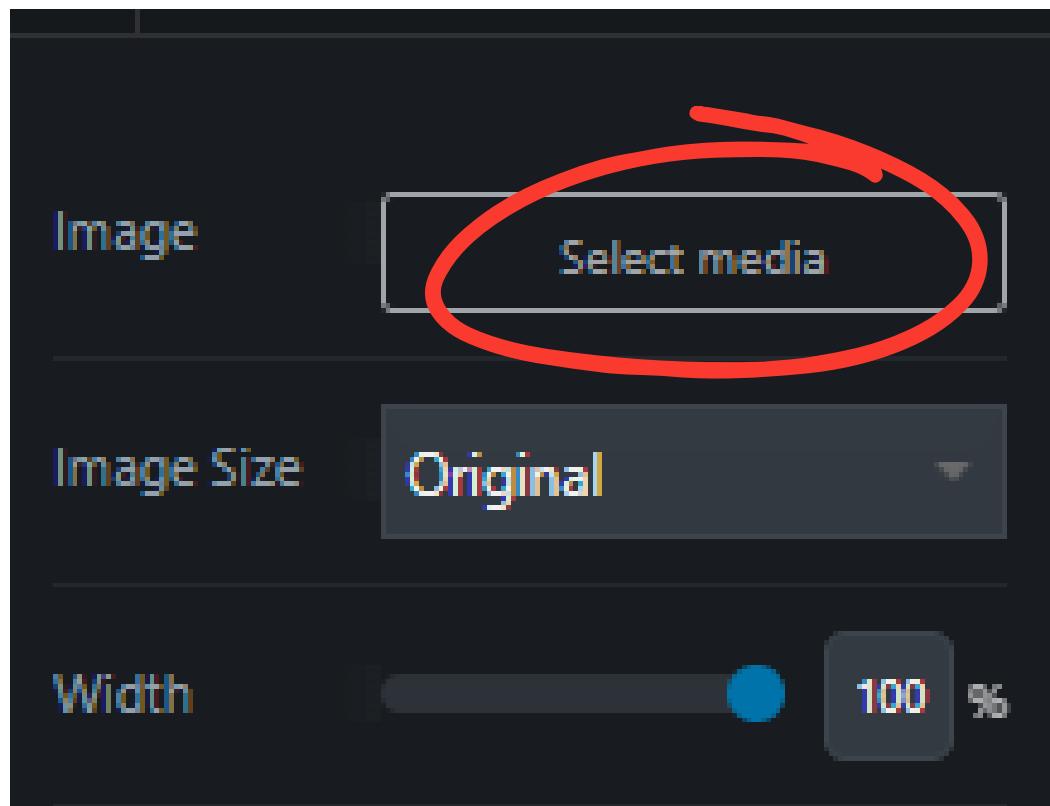

CONTENT

- Banner
- Image

Lottie

- Lottie
- Acme

5. Klick “select Media” lalu anda dapat melakukan drag & drop untuk upload image yang baru atau langsung memilih image yang pernah diupload sebelumnya

6. untuk menghapus slides sebelumnya anda cukup menekan icon gear disamping element Image, lalu klik tombol “Delete”
